

# Many students can earn up to \$2,305 per month in 2023 and still receive a full SSI cash benefit.

The Student Earned Income Exclusion allows SSI recipients under age 22, who regularly attend school, to exclude as much as \$2,220 of gross earned income per month, up to an annual exclusion of \$8,230.

$\$2,220 \text{ Student Earned Income Exclusion} + \$20 \text{ General Exclusion} + \$65 \text{ Earned Income Exclusion} = \$2,305$

**STUDENTS WHOSE HIGH SCHOOL YEARS INCLUDE PAID COMMUNITY WORK EXPERIENCE ARE MORE THAN TWICE AS LIKELY TO HAVE PAID EMPLOYMENT IN THEIR FIRST TWO YEARS OF ADULTHOOD.**

*Research conducted by Cornelius Vanderbilt Professor of Special Education at Vanderbilt University, Erik Carter and others.*

## WHAT DOES "REGULARLY ATTEND" MEAN?

Social Security's definition of "regularly attending school" means one or more courses of study in a college or university for at least 8 hours a week; in grades 7 - 12 for at least 12 hours a week; or in a training course to prepare for employment for at least 12 hours a week (15 hours if the course involves shop practice). Adjustments are made for those home bound and home schooled.

*For the months the Student Earned Income Exclusion is used, a student could earn \$4,133 per month before their cash benefit is suspended.*

*As long as the student attends school regularly before summer break and returns to regular attendance after summer break, the exclusion is effective through the summer months.*

*The exclusion is NOT optional – if the student is eligible, the exclusion must be applied.*
