DATE: Effective December 7, 2020

RE: Highest In-State Rates  
Four Year and Graduate Degree Programs 2020-2021

The following information represents the highest in-state rates that the Office of Vocational Rehabilitation may pay to private or out-of-state schools.

**The highest state rate is a factor only when requesting a training reconsideration from the district Branch Manager for approval to exceed the agency's current allowable level of training support of \$4,000.00 per year.**

When requesting a training reconsideration, staff must use the Office of Vocational Rehabilitation [OVR] 19A Training Reconsideration Worksheet located on the website under [Forms](#). Amounts exceeding \$10,000 will require approval from the Director of Program Services or their designee.

Although services to Supplemental Security Income/Social Security Disability Insurance recipients are not subject to economic needs testing, comparable benefits must be applied. Therefore, the same training assistance procedure needs to be followed. Negotiation is strongly encouraged to maximize resources to successfully serve the greatest number of eligible individuals.

Some costs include fees, but those are not always shown in the information available from financial aid or program websites. Some graduate programs are 100% online. Check with the school or university to see how many hours the school considers to be full time for each level of training.

**Note:** Due to Covid-19, some schools are charging for some online courses while others are not. This is dependent on the student's particular situation and the number of online versus on-campus versus hybrid classes. Other fees may be mandatory for certain programs.

### Undergraduate and Graduate Degree Program Rates:

1. **Undergraduate Full Time**
  - Per Year: \$12,484.00
  - Per Semester: \$6,242.00
2. **Undergraduate Part Time**
